ATTN OF: Frank Bloodworth, Facility Manager

SUBJECT: Letter of Appreciation

TO: John Seeley, Facilities Administrator  
NERO

During April through May 1993, and in March of 1994, **Edgar Morales** provided TDY staff support as Construction Representative during the activation phase and during an emergency security project at MDC Guaynabo.

Mr. Morales provided expertise during the activation phase on the renovation of the inmate housing units, installation of razor wire on 12 recreation yards, fabrication of steel bars for windows, and preparation for the dedication ceremonies. Mr. Morales worked long hours to correct errors and omissions discovered after the construction of MDC Guaynabo.

Mr. Morales also assisted us during an emergency security project. Edgar fabricated and supervised the installation of security mesh panels on nine recreation yards to rectify an omission from the original design and fabricated beds for SHU (Segregation).

Mr. Morales' hard work and dedication provided a stabilizing force and a work ethic for new staff to emulate. Edgar also provided training, supervision, coaching and mentoring to these staff members. His performance while on TDY status was outstanding.

Mr. Morales' professionalism was noticed by all with whom he came in contact. This was also relayed to me by members of the executive staff. We sincerely appreciate his assistance during this crucial time and would like to recognize his outstanding efforts.
